### **Great skiing and great deals**

Record many skiers have visited Hemsedal this season, but there are still opportunities if you are longing for great powder and perfectly groomed slopes.

A weak Norwegian currency compared to Euro and GBP can partly explain the

record numbers of guests this season, but also a long ski season with great snow conditions up to May is an important reason. Skiers are starting to recognise Hemsedal as a safe ski-destination with reliable snow conditions.

There are still opportunities for a ski holiday in Hemsedal this season. With almost 1000 new beds ski-in/ski-out, there are still available high standard apartments and cabins with the best locations.

Offer week 12 and 13

Sunday-Sunday at Alpin Lodge, including a 7 day ski pass, electricity and cleaning from NOK 2785,- per person. New apartments ski in/ski out to Hemsedal Skicenter. Bar, restaurant, sport shop, grocery store and more at the premises.
